

Honeywell Analytics 705

Sensor

The model 705 gas sensor is a low cost, explosion proof assembly fitted with "Sieger" poison-resistant combustible gas detection elements. Fully encapsulated, it is designed for use in hazardous locations.

Additional Information:

As World leaders in gas detection solutions, Honeywell Analytics' Sieger systems provide the most efficient, practical and cost-effective fixed-point equipment. Wherever protection is required from flammable or toxic gasses, you can rely on Honeywell's equipment to provide practical solutions and to help keep your business running safely and profitably.

Honeywell Analytics XNX

Universal Transmitter

The Honeywell XNX is designed for flexible integration, simple installation, user-friendly operation and straightforward maintenance. It is ideal for use with a range of gas monitoring controllers or industry standard PLCs. The introduction of Honeywell's HART Enhanced Device Descriptor Language (EDDL) software provides users with an at-a-glance indication of the health of their gas detectors in the field.
